

The “You-Had-Me-At-Hello” Video

The purpose of this video is to give you the experience of being on camera without an agenda. It will also give me an accurate feel of who you are and what you're working with so we know where you're starting from.

You can shoot it with a webcam, iPhone, DSLR, semi-pro camcorder or \$100,000 Arriflex. Doesn't matter. All I'm going to be looking at is you!

There's no good or bad here. We all begin from a different place, after all.

The video is best at a minute or less. Here's the simple structure:

1. Say your name and what you do.
2. Say what you would like to take away from this training.

That's it!

Then **post it to YouTube**, make it **unlisted**, and put a link to it in the **Greenroom** in the confidential **Welcome thread**. That way, the only people who can see it will be those already in the course.

By the way if those uploading instructions read like a foreign language, no fears!

Just follow the easy steps in the short little tech videos below this section. And we'll get you moving right along.

As soon as you post your video in the greenroom, go to Section One. If you have any problems with either shooting or uploading, give us a shout at clientcare@visibleauthority.com and we'll get you taken care of.

Looking forward to meeting you!

Happy Shooting!
